Yizhe Yang

+86 15935269179 yyizhe2023@lzu.edu.cn Homepage Google Scholar GitHub

Research Interests

Trustworthy Foundation Models: safety, alignment, robustness, interpretability
AI Safety Evaluation & Editing: red-teaming, benchmarks, continual safety
Domain & Embodied Foundation Models: scientific data (meteorology, healthcare); agents

Education

- **Xi'an Jiaotong University** *Admitted for Sept. 2027*
  Incoming M.Eng. Student in Computer Science and Technology Xi'an, China
- **Lanzhou University** *Sept. 2023 – Jun. 2027*
  B.S. in Physics (Major) and Management (Minor) Lanzhou, China
  - Relevant courses: Linear Algebra, Mathematical Physics Methods, Quantum Mechanics, Computational Physics, etc.

Publications

[C.1] **Yizhe Yang***, Xuanming Jiang*, Jisheng Dang†, Aoying Wang, Baoyi An, Hao Wu, Bimei Wang, Hong Peng, Guoshuai Zhao, Bin Hu†, Zhongyu Yang†. **SCOPE: Streaming Covariance-Orthogonal Post-Hoc Editing for Continual LLM Safety Governance**. ***SIGKDD 2026*** *(Acceptance Rate = 18.5%, Core A*).*

[C.2] Xuanming Jiang, Baoyi An, Dingyu Nie, Haoyu Ren, Zhengwei Zou, **Yizhe Yang**, Jialie Shen, Zhiwen Jin, Xueming Qian, Zhongyu Yang†, Guoshuai Zhao†. **Bridge Your Fields: MeteoNet for Efficient Non-Uniform Meteorological Field Reconstruction**. ***CVPR 2026F*** .

Experience

- **Research Group, Westlake University** *Hangzhou, China*
  ***Visiting Student**, Advisor: Prof. Yefeng Zheng* Jul. 2026 – Sept. 2026
  - Conducted research on safety alignment for medical large language models, focusing on clinical dialogue risk detection, refusal calibration, and robust mitigation of unsafe medical advice. Submitted to **AAAI**, under review
- **Research Group, Xi'an Jiaotong University** *Xi'an, China*
  ***Research Intern**, Advisor: Prof. Guoshuai Zhao* Jun. 2025 – Jul. 2026
  - Contributed to IPAN, a projection-alignment network for granular audio-visual event localization, improving robust cross-modal alignment under temporal asynchrony. Submitted to **TMM**, under review.
- **Research Group, Lanzhou University** *Lanzhou, China*
  ***Research Intern**, Advisor: Prof. Jisheng Dang* Dec. 2025 – Jul. 2026
  - Developed a multi-agent cartographic LLM framework, enabling collaborative map generation through tool-flow orchestration under an NSFC-funded research project.

Projects

- **Fundamental Research Funds for the Central Universities** *May 2025 – May 2026*
  Project Leader Lanzhou, China
  - SSL-MultipleInputsExplicableXGBoost
- **Land–Air Amphibious UAV System** *Sep. 2024 – Sep. 2025*
  Project Leader Lanzhou, China
  - Built a UAV system from an FPV drone prototype to a self-modeled land–air amphibious platform for rescue-oriented scenarios.

Honors and Awards

- **1st Prize**, China Undergraduate Physics Experiment Competition (2024) *Top 1%*
- **Outstanding Project**, Provincial Undergraduate Innovation Program (2024) *Top 2%*

Skills

- **Programming Languages:** Python, C, MATLAB, LaTeX
- **Research Tools:** PyTorch, Git, Linux
- **Languages:** Mandarin (Native), English (Fluent)
